

S-1 Speed-Feeder friction feeder

Feeder for labelling, printing & inspection of cartons, boxes, bags, pouches & sleeves

The S-1 Speed-Feeder is designed to feed product for coding, labelling and inspection.

The machine can be supplied fully integrated with optional printer or labeller, also can be supplied for mounting of customers own equipment if required,

Manufactured in stainless steel, it can be used in most environments and is ideal for food & pharmaceutical production.

Product changeovers are completed in a few minutes, making off-line coding an economical and efficient alternative to costly on-line systems.

TECHNICAL SPECIFICATION:

Construction:	<i>Stainless steel & anodised aluminium framework. Quick-changeover design. UKCA & CE Certified.</i>
Controls:	<i>Variable speed feed control</i>
Power Required:	<i>100-240 v AC Single phase. 1.5 kW loading.</i>
Throughput:	<i>Up to 150 cartons per minute depending on product size.</i>
Product Sizes:	<i>Width 70-420mm; Length 60-320mm; Thickness 0.02-5mm</i>
Approx. Dimensions:	<i>Width 460mm; Length 1500mm; Height 750mm</i>
