

Tampino 2 Automatic tamper evidence

Tamper-evident labeller

The Travtec Tampino 2 is a compact system for automatically applying permanent tamper-evident labels to the closure & security of cartons.

Widely used in the pharmaceutical, cosmetics & consumer electronics, the Tampino 2 is versatile top-down applicator ensuring an accurate efficient placement of tamper-evident labels over the end or top flaps

The Tampino 2 can be use as a single system off-line, or in-line with a second unit mounted in tandem for closure at both ends.

Integrated conveyor of maintenance-free design with robust construction, it is of universal design and can be used worldwide.

Simple to set up and operate, The Tampino 2 increases the efficiency for manual & automatic processes and is a cost-effective means of applying tamper seals to a wide range of carton sizes.

See the Tampino 2 on you tube at:

TECHNICAL SPECIFICATION:

Construction:	<i>Stainless steel construction. Automatic operation for on or off-line applications. Quick-adjustment design. UKCA & CE Certified.</i>
Dimensions:	<i>Length- 850mm; Height- 1500mm; Width- 700mm</i>
Controls:	<i>On/Off Switch. Label applicator solid state control.</i>
Power Required:	<i>100-250 AC. 50/60 Hz. 1.5 kW loading.</i>
Throughput:	<i>Up to 40 labels per minute (automatic operation)</i>
Carton Sizes:	<i>25-100mm wide; height 15-100 high; 80-300mm length.</i>
Label Sizes:	<i>12-50mm wide; 25-50mm length. Square, Oblong, Round, Oval</i>
