

T-420i Bottle Coding Labeller

Tabletop Labeller with TIJ Coder for Jars, Cans, Bottles & Tubes

The T-420 is designed as an off-line system for applying self-adhesive labels to cylindrical items such as jars, bottles, cans & tubes.

Integrated Thermal Inkjet Printer for Expiry Dates & Batchcodes.

It is quick, easy and safe to operate, semi-automatically applying most kinds of self-adhesive labels accurately & efficiently onto a wide range of cylindrical product..

Minimum capital outlay. High quality engineering ensures years of economical & consistent labelling.

Clean, maintenance-free design with robust construction.
